## CSE1322L - Lab 7

## **Objectives**

Recursion

## **Background**

In this lab you'll write a number of recursive methods.

Lab 7A: You will write multiplication, division and modular division using recursion. Lab 7

4) Finally, write the main method, which prompts the user to either multiply, div, or mod. Then prompt the user for 2 numbers, call the appropriate method, receive a result, and print it out.

Continue to ask the user (you may use a loop here) until they choose 0 to quit.

## Lab 7A Sample Output:

```
Choose from the following:
0.
   Quit
1. Multiply 2 numbers
2. Div 2 numbers
3. Mod 2 numbers
1
Enter first number
3
Enter second number
5
Answer: 15
Choose from the following:
0. Quit
1. Multiply 2 numbers
2. Div 2 numbers
3. Mod 2 numbers
1
Enter first number
5
Enter second number
0
Answer: 0
Choose from the following:
0. Quit
1. Multiply 2 numbers
2. Div 2 numbers
3. Mod 2 numbers
2
Enter first number
15
Enter second number
5
Answer: 3
Choose from the following:
```

- 0. Quit
- 1. Multiply 2 numbers

```
2. Div 2 numbers
3. Mod 2 numbers
2
Enter first number
15
Enter second number
2
Answer: 7
Choose from the following:
0. Quit
1. Multiply 2 numbers
2. Div 2 numbers
3. Mod 2 numbers
2
Enter first number
15
Enter second number
0
Answer:
```

C#: string.Length, string[0], string.Substring()

Main method:

I must study recursion until it makes sense I must study recursion until it makes sense
