

KSU Library System Accessibility Policy

The Kennesaw State University Library System is committed to providing equal access to library collections, services, and facilities for all library users. It is a priority for the Library System to select and acquire, whenever possible, resources and technologies that are accessible to all and compliant with the Americans with Disabilities Act. We are committed to providing reasonable accommodations and timely access for persons defined as disabled under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990. We strive to regularly assess our resources and services to ensure accessibility to all users.

Approved by Library Leadership: May 27, 2021

Creation Date: 04/13/2021

Authors: Amy Barker, Mary Margaret Cornwell, Kandace James, Heather Hankins, Monica McLaurin, Shelby Moore, Chris Morris, and Manda Sexton

Requesting Resources:

- You are welcome to request resources be added to the library collection via a purchase request. Please complete [the online form](#) or contact the library for help.

Participating in Database Trials:

- A way you can help the Library System develop their collection of accessible content is to participate in Database Trials. Database Trials occur twice a year and are a way for faculty, staff, and students to provide feedback on potential database additions to the library collection. Database Trials are advertised on the library webpage and library signage. All are encouraged to interact with the databases and complete surveys based on their usefulness and desirability.
